

Black Band® to IEC61549

## ***Commission Regulation (EC) No 245/2009 & IEC61549 Fragment Retention Lamp Standard***

***Implementing Directive 2005/32/EC of the European Parliament and of the  
Council with Regards to ecodesign requirements for shatterproof fluorescent  
lamps & IEC61549 Standard***

From April 2010 the service life for all shatterproof fluorescent lamp coatings must last for at least 16,000 hours, when operated on High Frequency Control (H.F) gear, in accordance with the above regulation. Be sure all your shatterproof fluorescent lamp purchases are FEP coated.

GlassGuard® is the lowest cost producer of shatterproof FEP coated fluorescent lamps in Europe. Our unique BlackBand® marking is our signal of compliance which is recognised by the food industry and its hygiene auditors from the British Retail Consortium (BRC). Most of the UK's food industry is BRC Certificated so by switching to GlassGuard BlackBand® you can be sure of compliance.

How you can benefit from installing GlassGuard BlackBand® lamps

- Meets Regulation (EC) 245/2009 Providing Long Service Life
- Meets IEC61549 Fragment Retention Lamp Standard
- Industry Compliant Glass Fragment Protection
- Maintenance Savings Through Longer Life
- Increased Financial Savings Through Cost of Ownership
- 20,000 Hour Coating Service Life Guarantee
- Recognised & Supported by the British Retail Consortium (BRC)
- Passes All BRC Internal Hygiene Audits (BlackBand® Ring Identifier)
